All hands were lost And he was one, A spritely lad, Nigh 21."

ASKING FOR A PASS .- The Buffalo Courier tells the following anecdote of a prominent railroad gentleman, who is equally renowned for his ability to make and take a joke. A railroad employee, whose home is in Avon, came one Saturday night to ask for a pass down to visit his family.

You are in employ of the railroad?" inquired the gentleman alluded to.

"You receive your pay regularly?" "Yes."

"Well. Now suppose you were work ing for a farmer instead of a railroad, would you expect your employer to hitch up his team every Saturday night and carry you home?"

This seemed a poser, but it wasn't "No," said the man promptly. "I wouldn't expect that; but if the farmer had his team hitched up, and was going my way, I should call him a darned mean cuss if he would not let ---:4-" Mr. Employee came out three minates

afterward with a pass in his sock, good for twelve months. Some young men, traveling on horseback among the White Mountains, became exceedingly thirsty, and stopped for milk at a house by the roadside.

They emptied every basin that was offered, and still wanted more. The woman of the house at length brought out an enormous bowl of milk, and sat it down on the table, saying-One would think, gentlemen, that

"One would think, gentlemen, that you had never been weaned."

My son, would you think that the Lord's prayer could be engraved within the space no larger than the area of a dime? "Well, yes, father; if a dime is dime? "Well, yes, father; if a dime is as large in every man's eye as it is in

DR. JOHN BULL'S COMPOUND The Latest and Most Important Discovery of the 19th Century.

O MAN'S NAME IS MORE INTIMATELY N connected with the history of the Materia Medica of the United States, or more tavorably known as a pioneer in medical discovery, than that of Dr. JOHN BULL, of Louisville, Ky. His inimitable preparation of Sarsaparilla has long stood at the had of the various compounds of that valuable drug. His Compound Pectonal or Wild CHERRY has become a household word throughout the West and South; and his Worm Lozenges, in less than a year after their introduction, attained a secretation say wide appearance the continent of less than a year after their introduction, attained a reputation as wide-spread as the continent of North America. But the erowning glory of his life remains to be attained in his latest discovery, or rather combination; for he does not claim to have been the discoverer of CEDRON, which is the basis of the bitters now offered to the public. That honor belongs to the native inhabitants of Central America, to whom its virtues have been That honor belongs to the harve innationals of Central America, to whom its virtues have been known for more than two hundred years. Armed with it, the Indian bids defiance to the most dead-ly malaria, and handles without fear the most venemous cerpents. It is a belief with them that while there is breath left in the body, the Oedron is potent to cure, no matter what the disease may

While Dr. Bull is not prepared to indoze this extravagant pretension, he is nevertheless satisfied from a thorough examination of the exidence relative to its virtues, that as a remedy and preventative for all diseases arising from exposure, either to changes of weather and climate, or to the missmatic influences, it stands without a long enjoyed in Central Augurica and the West Indies. In DYSPEPSIA, And its attendant train of symptoms, its acts more like a charm than a medicire. There is nothing in the whole range of the Materia Medica,

that for a moment hear a comparison with it in ted her repairs, and will at once comfound in the 11th edition of the U. S. Dispensa-
